YEAR-END DAY, December Y, follows December 30th every year
LEAP-YEAR DAY, June L, follows June 30th in leap years

The World Calendar regulates the twelve-month year. It is balanced in structure, perpetual in form.

Its twelve months are multiples of halves and quarters. The equal quarters consist of 3 months; the first month has 31 days; the remaining two have 30 days. These quarters also comprise 13 weeks or 91 days, of which 13 days are Sundays and 78 are weekdays. Each month has 26 weekdays.

In the perpetual calendar, Year-End Day, the odd 365th and last day of the year, is considered as an extra Saturday between December 30th and January 1st. The additional 366th day in leap years is considered as another extra Saturday between June 30th and July 1st and is called Leap-Year Day. These days are tabulated as December Y and June L respectively, by which method the 31-day months begin the quarters. It is recommended that these two stabilizing days be considered by the United States as holidays. January 1st, New Year's Day, falls on Sunday, and the working-week begins the following day.

The revised twelve-month year in its even quarters conforms to the seasons, recognizing natural laws. Comparisons are easily obtained; changes involved require a minimum of adjustment; expenses are not increased for business and the consumer; religious and secular holidays are stabilized, and the transition from the old to the new order is made easy by the retention of the twelve-month year.

"Our stability is but balance."—Robert Bridges.

CALENDAR REFORM

Shall we have 12 months or 13?

PLAN A: Four equal quarters, like this →

. . . . or

PLAN B: Quarters with split months, like this →

First quarter: Jan., Feb., March, plus 1 week of April.

Second quarter: 3 weeks of April, all of May and June, plus 2 weeks of a new month.

Third quarter: 2 weeks of the new month, all of July and August, plus 3 weeks of Sept.

Fourth quarter: 1 week of Sept. and all of Oct., Nov. and Dec.

★ A 48 hour day Dec. 30 each year and June 30 in each leap year.

★★ A 48 hour day either June 28, or 2 weeks later at end of 2nd quarter, in each leap year.

★★★ A 48 hour day Dec. 28 each year.
